

- 1)The FCC should not implement any proposal that would lessen INDIANA'S TELEPHONE PRIVACY LAW protections.
- 2)INDIANA'S TELEPHONE PRIVACY LAW IS WORKING AND HAS GREATLY IMPROVED OUR PRIVATE TIME IN "OUR HOMES".
- 3)Since this law has been in effect the Attorney Generals office of Indiana has given our home peace. We received on average of 12-15 calls "EVERYDAY" mon-fri starting at 7am up to as late as 10pm. That doesn't include the calls left on the recorder during work hours or hang-ups on the recorder, which were another 3-7 calls each day and 4-6 calls on SATURDAY and SUNDAY.
- 4)Our home is our sanctuary, a place of where we can rest and enjoy the family, some quiet time and use "OUR PHONE" at "OUR LEASURE"
- 5)Please let us continue with peace & quiet. No more phone harassment. Its working.

Thank-you

Norman & Janet
